National Foster Care Month is observed in the United States during the month of May every year. It began with President Ronald Reagan in 1988. Currently, it's estimated that over 408,000 children are in foster care. We are extremely proud of our resource parents, staff and stakeholders for helping enhance the lives of children and youth in the foster care system. National Foster Care Month has three main campaign goals:

1. Raising awareness of foster care issues.
2. Motivating others to help foster care and foster children succeed.
3. Create a positive framework that maintains the progress made during the month of May throughout the rest of the year. Thank you all for your genuine desire to help those in need
